Wei-Hai-Wei

2.1, B (clarification). The areas on the map with the white hexagons are ones with Chinese forts.

3.2 Card Draw Activation (correction): References to Chinese Resistance Level should instead say Chinese Morale.

4.1 Ground Assault, 3rd line from bottom (correction). The reference to DF should instead read CF.

How to Read the Unit (correction):

The unit ID section is incorrect and should read as follows:

- *Primary Battery*: Upper right (outside the firing arc diagram).
- *Secondary Battery*: Middle right (inside the firing arc diagram).

Counters (correction):

The *Yoshino* should have a yellow movement factor. Use a yellow highlighter pen to correct this.

Yalu

3.3 Asterisked MP (correction). Ships with this capability have a yellow MP factor (not asterisked).

4.2 Naval Combat Resolution (correction). Ignore the DR modifier for a grounded ship. This is holdover text from the other two games in the series.

Designer Notes, second paragraph, tenth line (correction): Both the Japanese and Chinese steamed into battle with many **unanswered** questions.

Map: The compass on each map section was printed upside down. As a result the set ups for the game are incorrect.
